High School - PCM - Percentage - 82.6%

Agra, Uttar Pradesh

#### **PROJECTS**

# Real-Estate MongoDB, Express , Nodejs, React, Tailwind CSS, Firebase

2024

- Built a real estate website using the MERN-Stack (MongoDB, Express, React, Nodejs) along with Tailwind CSS for sleek styling.
- The platform enables seamless property search by location, price range, and amenities, with intuitive navigation and interactive maps. Detailed property listings feature high-quality images, descriptions, and key features.
- Implemented user authentication for saved listings and agent contact, ensuring a responsive and visually appealing user experience.

# Shopping App 🗷 | JavaScript, CSS, HTML, Nodejs, Express, MongoDB, EJS

2023

- Designed responsive UI for an online ordering recycle products platform using HTML, CSS, JavaScript and EJS template to enhance user experience.
- Implemented the back-end functionality using Nodejs and Express, leveraging the power of MongoDB for data storage.
- Implemented CRUD operations for users profiles, allowing buying and selling both and some basic functionality of E-commerce website.

#### Student Grade Calculator 🗷 | HTML, CSS, JavaScript

2022

- Develop a Grade Calculator that calculate the percentage of the student.
- After entering the marks of the different subjects it will calculate the percentage and grade according to the marks.

#### TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Technologies/Frameworks: HTML5, CSS3, MongoDB, Express, React, NodeJS, Bootstrap

Developer Tools: VS Code, IntelliJ, Git, Github

#### EXTRACURRICULAR

- Participated in Internal Smart India Hackathon.
- 1500+ Rating on Leetcode platform.
- Vice President of Table Tennis Club in our University.
- Won the best player award 2 times in Table Tennis.
